NVMD LOG # 05-02

NVMD-PA-Z (600-200)

5 January 2005

MEMORANDUM FOR All Units and Activities, Nevada Army National Guard

SUBJECT: Use of Health Care Practitioners in Providing Health Care during Inactive Duty Training (IDT)

1. Effective immediately, LOG Letter #96-9, dated 1 November 1996, subject as above, is RESCINDED.
2. References:
 - a. AR 40-400, Patient Administration, dated 12 March 2001.
 - b. AR 40-68, Clinical Quality Management, dated 26 February 2004.
3. This memorandum provides guidance to Nevada National Guard licensed health care practitioners, in providing health care within the scope of their privileges and credentials to authorized military beneficiaries. Authorized beneficiaries are active duty personnel, retirees, and family members.
4. M-day soldiers on IDT **are not** authorized beneficiaries of medical care in accordance with above references. **Medical care may only be provided for M-day soldiers on IDT when there is an emergency** where there is potential for loss of life, limb, or vision. Health care providers may recommend to the commander when a **soldier should be released from duty to seek medical care**. Even during annual training (AT), care for M-day soldiers is limited.
5. Licensed health care practitioners, including M-day reservists, may provide care during IDT or AT to authorized beneficiaries as defined in paragraph 2 above. M-day health care providers (doctors, nurse clinicians, physician assistants) must be on official orders in AT, IDT or other Federal status to legally provide care.
6. The Federal Tort Claims Act and Title 10 United States Code, Section 1089, will cover our licensed health care practitioners as long as they are functioning within their scope of practice and within the restrictions of paragraph 2.
